Professional Summary

Full Stack Developer with 3+ years of experience building scalable web and mobile applications using **React.js**, **Next.js**, **Flutter**, **Node.js**, and **Python**. Experienced in developing enterprise solutions, e-commerce platforms, AI-powered trading applications, and cloud-based systems. Skilled in REST API integration, responsive UI development, AWS deployment, performance optimization, workflow automation, and marketplace integrations. Proven track record of delivering production-ready applications across ERP, HRMS, Document Management, e-commerce, trading, and marketplace ecosystems in Agile environments.

Technical Skills

Frontend Development: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Redux, Context API

Mobile Development: Flutter (Dart), React Native, BLoC, Provider, Hive

Backend & API Development: Node.js, Express.js, Python, Django, REST APIs, WebSockets, JWT

Cloud, DevOps & Deployment: AWS EC2, Nginx, PM2, Git, GitHub, GitHub Actions, CI/CD, Linux

Databases MySQL, PostgreSQL, Firebase Firestore, Data Collection

Software Engineering: SDLC, Agile Methodologies, State Management, Performance Optimization, UI/UX Design, Debugging, Grafana, Requirement Gathering, Problem Solving

Professional Experience

Frontend Developer

Abu Dhabi, June 2025 - June 2026

Saadah Investment LLC (Sakab Group)

- Spearheaded development of e-commerce platforms and AI-powered trading solutions using Next.js, Node.js, and Django, improving application performance and user engagement by 25%.
- Integrated Amazon Seller Central SP-API, automated product listing workflows, and built product data extraction pipelines, reducing manual catalog management effort by 60%.
- Crafted AI chatbots, affiliate marketing workflows, order tracking systems, and Shopify-style storefront experiences, increasing customer interaction efficiency by 35%.
- Drove SEO optimization, UI/UX enhancements, Meta Ads campaigns, and AWS-hosted deployments, contributing to a 30% increase in organic traffic and improved platform visibility.

Frontend Developer (Project Engineer)

Chennai, India, July 2023 - May 2025

The Zigma Technologies India (P) Ltd

- Delivered 10+ enterprise and client-facing applications across ERP, HRMS, and Document Management Systems using React.js, Next.js, Flutter, and React Native.
- Collaborated with stakeholders to gather requirements, translate business needs into technical solutions, and build dashboards, data collection workflows, PDF reports, and invoice generation modules.
- Engineered face recognition, bulk upload, and data visualization features while leveraging Grafana for server monitoring and operational insights.
- Orchestrated App Store and Play Store releases, implemented GitHub Actions CI/CD pipelines, and supported deployments on AWS EC2 environments.

Mobile Application Developer Intern

Bengaluru, India, July 2022 – March 2023

CERP Software Solutions

- Developed and maintained a Flutter-based School Management Application with attendance tracking, homework management, timetable scheduling, exam schedules, and notification features for 1,000+ users.
- Designed and implemented 15+ responsive UI screens using Flutter, ensuring a seamless and consistent user experience across Android devices.
- Implemented secure user authentication, real-time data management, and notification workflows to support daily academic and administrative operations.
- Managed end-to-end Google Play Store deployment, including Play Console setup, internal testing, app signing, and production releases, achieving 100

Projects

Kalaimagalsabha.in - Government Public Services Portal *Tech Stack: React.js, Python, REST APIs*

- Built a **public-facing document management portal** featuring user registration, authentication, multi-step document verification workflows, digital record management, and PDF book viewing capabilities for citizen services.
- Led **frontend development** for a high-traffic government platform, implementing bulk document upload functionality, scalable user workflows, and responsive interfaces recognized for successful project delivery.

Bazaario E-commerce Platform *Tech Stack: Next.js, React.js, Node.js, REST APIs, AWS, GitHub Actions*

- Developed a multi-tenant **e-commerce platform** enabling **Shopify-style store creation**, custom domain configuration, product management, order tracking, and affiliate marketing workflows for online businesses.
- Automated application delivery through **CI/CD pipelines** and managed AWS-based deployments, ensuring reliable releases, scalable infrastructure, and streamlined store onboarding processes.

Zigma Work Pro - HRMS & Attendance System *Tech Stack: Flutter, Firebase, ML Kit, Odoo API*

- Engineered a mobile-based **HRMS and attendance management system** featuring employee onboarding, leave management, payslip generation, holiday tracking, employee records, and role-based access for managers and employees.
- Implemented **face recognition with liveness detection**, geo-location tracking, and location-based attendance validation integrated with Odoo backend services, streamlining workforce management and attendance monitoring.

Crypto Dashboard (Tezca) *Tech Stack: Next.js, React.js, WebSockets, Binance API, OKX API, TradingView*

- Developed a **crypto trading platform** featuring live portfolio balances, TradingView chart integration, automated trading bots, demo trading mode, affiliate tracking, and real-time market analytics.
- Integrated **Binance and OKX APIs** with WebSocket-based trade alerts and report generation workflows, while implementing SEO optimization and structured schema markup to improve search visibility and platform discoverability.

Manpower - Worker Booking App *Tech Stack: Flutter, Firebase, REST APIs, Geolocation Services*

- Built a **location-based worker booking platform** enabling users to discover nearby workers, post jobs, manage bookings, receive push notifications, and communicate through real-time chat functionality.
- Owned the **end-to-end application lifecycle**, including business logic implementation, UI/UX enhancements, Play Store maintenance, privacy policy compliance, feature releases, and production support.

Redruby VMS - Venue Management System

Tech Stack: Flutter, REST APIs, PDF Generation

- Developed a **Venue Management System** supporting venue booking, event scheduling, venue audits, verification workflows, and multi-admin operations to streamline facility management processes.
- Implemented **PDF report generation, e-signature workflows, and API-driven data management**, enabling digital approvals, audit documentation, and efficient booking administration.

Education

Bachelor of Technology (B.Tech) in Information Technology

2019 – 2023

Vels Institute of Science, Technology & Advanced Studies

Chennai, India

First Class with Distinction, CGPA: 8.74/10

Certifications

- AWS Certified Cloud Practitioner CLF-C02 (Pursuing — LinkedIn Learning)
- **JavaScript Programming** – Meta (Coursera) Certificate Link
- **Advanced React** – Meta (Coursera) Certificate Link
- **Frontend Developer** – Meta (Coursera) Certificate Link

Additional Information

- Nationality: Indian — Gender: Male
- UAE Employment Visa Holder — Immediate Joining Available
- Attested Bachelor's Degree (B.Tech - Information Technology)
