SUMMARY

Frontend and Mobile Application Developer with over 3+ years of professional experience in designing and developing scalable web and mobile applications using React.js, Next.js, and Flutter. Proven expertise in building responsive user interfaces, integrating RESTful APIs, and delivering high-performance, cross-platform solutions. Strong understanding of UI/UX best practices and clean architecture, reusable components, and state management.

SKILLS

Web Development

- HTML5, CSS3
- JavaScript (ES6+), TypeScript
- React.js, Next.js
- Tailwind CSS
- REST API Integration
- WebSockets

Mobile Development

- Flutter (Dart), React Native
- Android & iOS App Development
- Firebase Integration
- Push Notifications

State Management

- BLoC
- Provider
- Hive
- Zustand

EXPERIENCE

Saadah Investment LLC — Abu Dhabi, UAE
Frontend Developer — 06/2025 - Present

- Designed andexpandedresponsive web and mobile user interfaces using React.js, Next.js, and Flutter, ensuring cross-browser and cross-device compatibility.
- Built reusable and modular component libraries to improve development efficiency and maintain UI consistency across applications.
- Implemented secure role-based authentication and authorization workflows to enhance application security and user access control.

The Zigma Technologies India (P) Ltd — Chennai, India
Project Engineer (Frontend Developer) — 07/2023 - 05/2025

- Developed cross-platform user interfaces from Figma designs, delivering pixel perfect, responsive layouts for web and mobile applications.
- Published, deployed, and maintained mobile applications on Android Google Play Store) and iOS Apple App Store), ensuring compliance with platform guidelines.
- Managed the full mobile app release lifecycle, including build generation, versioning, store submissions, and post-release updates.
- Improved application accessibility and usability across 5 mobile apps, enhancing overall user experience.

CERP Software Solutions Pvt Ltd — Bangalore, India
Mobile App Developer Intern — 07/2022 - 03/2023

- Improvedresponsiveand adaptiveUI components for Android using Flutter under senior developer guidance.
- Participated in QA testing, bug fixing, and performance validation to ensure stable production releases.
- Provided support during production deployment and post-release maintenance activities.

EDUCATION

Vels Institute of Science Technology and Advanced Studies (Vistas) - 8.74 CGPA — Chennai, India
B.Tech in Information Technology (Cloud & Mobile App Development) — 2019 - 2023

Sakthi Matric Higher Secondary School — 2019
HSC (80%)

Bharathi Matric Higher Secondary School
SSLC (93%) — 2017

DevOps & Cloud

- CI/CD (GitHub Actions)
- AWS EC2
- Linux Server Management
- PM2
- Nginx

Testing & Debugging

- API Testing using Postman
- Application Debugging & Error Handling
- Production Issue Troubleshooting

Tools & Technologies

- VS Code
- Android Studio
- Xcode
- Flutter Version Management (FVM)
- Git, GitHub (branching, pull requests)
- Grafana (Monitoring Basics)
- Figma (UI to Code)
- Hive (Local Storage – Flutter)
- TestFlight
- Google Play Store
- Apple App Store

Development Practices

- Agile/Scrum Methodology
- Clean Code Principles
- Modular & Reusable Architecture
- Code Review & Documentation
- Version Control Best Practices

Operating Systems

- Windows
- Linux
- macOS

PROJECTS

Worker Booking App

ManPower - Worker Booking App

- Planned and created a full-featured employee booking app with real-time booking, messaging, and notifications.
- Integrated REST APIs, Firebase messaging, and geolocation to book nearby employees efficiently.

Work Pro Mobile Application

Employee Attendance & HR Management System

- Created AI-powered face recognition and secure location-based check-in and verification workflows to improve
- attendance accuracy and prevent misuse.Automated core HR processes including leave management, payslip
- generation, and out-duty requests, reducing manual errors by 90 percent.Applied responsive, user-friendly mobile UIs
- using Flutter to ensure smooth performance across Android and iOS devices.

Tezcai.com

Smart Automated Crypto Dashboard

- Built interactive and responsive dashboards using Next.js to display real-time crypto data and affiliate analytics.
- Implemented on-page SEO optimization, including meta tags, structured content, and performance best practices to improve search visibility.
- Enforced mobile-first, responsive layouts to ensure seamless user experience across devices and screen sizes.
- Integrated RESTful APIs to fetch and update live cryptocurrency and analytics data.

Bazaario.io

Web E-Commerce Platform

- Built and deployed a production-ready web platform using Next.js with automated CI/CD pipelines via GitHub Actions for seamless deployment to AWS EC2.
- Implemented secure SSH-based deployment workflows, process management with PM2, and production routing through Nginx.
- Developed responsive, performance-optimized user interfaces and integrated REST APIs for real-time product, order, and user management.
- Improved deployment reliability and reduced manual release effort by enabling fully automated build and deployment workflows.
