UAE Employment Visa | Available for Immediate Joining

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 3+ years of experience designing, developing, and deploying scalable web and mobile applications across enterprise and client-facing platforms in the UAE and India. Proficient in React.js, Next.js, TypeScript, and Flutter with expertise in REST API and GraphQL integration, AWS cloud deployment, CI/CD pipelines, and performance optimization. Delivered 10+ production-ready applications supporting thousands of users. Holds UAE Employment Visa and is available for immediate joining.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Vite, SSR, SEO Optimization
Mobile:	Flutter, React Native, Expo, Dart, Firebase, FCM, Hive, FVM, Cross-Platform Mobile Development
UI/UX & Styling:	Tailwind CSS, Bootstrap, Material UI, Figma, Adobe XD, Photoshop, Responsive Design
State Management:	Redux Toolkit, Zustand, Context API, BloC, Provider, GetX
Cloud & DevOps:	AWS EC2, Nginx, PM2, Docker, CI/CD, GitHub Actions, Linux Server Management
API & Backend:	Node.js, Python Django, REST APIs, GraphQL, WebSockets, Firebase Firestore, JWT Authentication
Testing & QA:	Jest, Unit Testing, Widget Testing, React Testing Library, API Testing, Manual Testing, Debugging
Databases:	Basic knowledge of MySQL, PostgreSQL, MongoDB, Firebase Firestore, SQLite
Methodologies:	Agile/Scrum, Clean Architecture, SDLC, Code Splitting, Lazy Loading, Performance Optimization
AI & Productivity:	Prompt Engineering, Vibe Coding, Claude (Anthropic), ChatGPT (OpenAI), Gemini (Google)
Tools:	Git, Postman, VS Code, Android Studio, Xcode, Google Play Console, Apple App Store Connect, TestFlight, Grafana, Firebase Console, Linux, MS Office

PROFESSIONAL EXPERIENCE

Frontend Developer

June 2025 – Present

Saadah Investment LLC (Sakab Group)

Abu Dhabi, UAE

- Develop, test, and deploy production-grade web and mobile applications using React.js, Next.js and Flutter with TypeScript and JavaScript, supporting 1,000+ active users across Agile sprint cycles with consistent on-time delivery.
- Integrate REST and GraphQL APIs with robust error handling and retry logic, enhancing application reliability and enabling real-time data processing within microservices-based architectures.
- Deploy and maintain applications on AWS EC2 using Nginx, Docker, and CI/CD pipelines, optimizing load times, scalability, and production stability across web and mobile platforms.
- Enforce SDLC best practices through peer code reviews, unit and integration testing, and clean code standards to ensure high-quality, maintainable production releases.
- Collaborated with UI/UX designers and product managers to translate Figma wireframes into pixel-perfect, accessible web and mobile interfaces, reducing design-to-development handoff time.

Project Engineer – Frontend Developer

July 2023 – May 2025

The Zigma Technologies India Pvt Ltd

Chennai, India

- Developed and maintained 10+ production web and mobile applications using React.js, Next.js, and Flutter for Android and iOS, delivering measurable improvements in performance, usability, and user engagement.
- Built reusable UI component libraries and responsive interfaces, standardizing design patterns and reducing cross-project development time.
- Implemented secure authentication workflows (JWT, Firebase Auth) and integrated REST APIs and Firebase services to support scalable application functionality across web and mobile environments.
- Managed end-to-end deployments to Google Play Store and Apple App Store, and configured CI/CD pipelines on AWS for reliable production releases and high system availability.

Mobile Application Developer – Intern

July 2022 – March 2023

CERP Software Solutions

Bengaluru, India

- Developed Flutter-based Android applications with responsive user interfaces optimized for multiple device types and screen sizes, improving usability and overall user experience.
- Managed Google Play Store release processes including application builds, version management, and production deployment of mobile applications.
- Conducted release testing, debugging, and issue resolution prior to Play Store submission, ensuring application stability and reliable performance in production.

KEY PROJECTS

Bazaario – E-Commerce Platform | bazaario.io

- Built and deployed a full-featured e-commerce platform using Next.js and React.js with product management, order processing, and secure JWT-based user authentication.
- Implemented CI/CD pipelines and deployed on AWS EC2 using Nginx to automate build and deployment processes, ensuring zero-downtime releases.

Zigma Work Pro – Employee Attendance System | [Play Store link](#)

- Developed a face recognition-based attendance system using Flutter, Firebase, and ML Kit to automate attendance tracking and eliminate manual entry.
- Reduced manual attendance errors by 90% through workflow automation and real-time data synchronization across web and mobile platforms.

Crypto Dashboard (Tezcai) – Real-Time Financial Analytics | tezcai.com

- Built real-time dashboards using Next.js and React.js displaying financial and transaction analytics through REST API integration with optimized data rendering.
- Improved application performance and SEO ranking through frontend optimization techniques including code splitting, lazy loading, and responsive UI design.

Manpower – Real-Time Worker Booking Application | [Play Store link](#)

- Developed a cross-platform worker booking application using Flutter and Firebase supporting real-time chat, push notifications (FCM), and geolocation features.
- Integrated Firebase Cloud Messaging for reliable real-time communication and task management across Android and iOS platforms.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology

2019 – 2023

Specialization: Cloud and Mobile-Based Application Development

Chennai, TamilNadu, India

Vels Institute of Science, Technology and Advanced Studies

CGPA: 8.74 / 10.0

CERTIFICATIONS

JavaScript Programming | coursera.org/verify/99PUBKN6WWXV

Meta – Coursera

ES6+ features, asynchronous programming, debugging, and JavaScript application development.

Advanced React | coursera.org/verify/RERWJEGVR24T

Meta – Coursera

Hooks, component architecture, performance optimization, and advanced frontend development patterns.

React Basics | coursera.org/verify/BR2TY3BBKSGE

Meta – Coursera

Core React concepts: components, state management, props, and responsive UI development.

Frontend Developer | coursera.org/verify/N8AGX3RRLMVW

Meta – Coursera

HTML, CSS, JavaScript, responsive design, and modern frontend development workflows.

Version Control with Git | coursera.org/verify/FPK4D4N7RKHK

Meta – Coursera

Git branching strategies, collaboration workflows, and repository management with GitHub.
